PINANCIAL AND BUSINESS SITUA-The record of the first haif year's business of 1883, the New York Public remarks, is not moonraging. At New York the amount of sainess done was 12 per cent, less than the first half of 1881, and smaller than during the first half of 1880, and not as large as the first half of 1882. Outside of New York the total exchanges have amounted to a larger sum than during any previous half year. If other cities keep a smaller reserve at New York than formerly, and settle transactions more community through their principle commercial centers, that will account for increased exchanges elsewhere and diminhouse drains entering the sewers so raise the ished ones at New York. Chicago and Pittaburg, pixces of much speculation this year, show a large increase of transactions. Bos ton, though complaining much of duliness. has a large increase; there may be more settlements maje at Chicago and Boston than formerly, but as the total exchanges show a decrease, the increase outside New York cannot account for any large part of

Herald gives reason to expect lively times of the year there has been shrinkage to some extent in New York, ranging from 23 5 per enforce the new law regulating the liquor except in May, there has been some increase cent, in April to 15 per cent, in May, and throughout the State, and liquor-selling to York. Most of the cities have shared in the gains, and the increase cannot be wholly attributed to speculative excitement. It appears that N w York must have lost some of its former business. The decline in price will probably account for the difference, the quantity of business being as large as in 1882 Still New York has been doing a smaller share of the aggrerate. Of the entire silver coinage of the fiscal year, out of attached to a horse by means of a pair of \$28,111,119 coined only \$3,000,000 have gone out to say, \$25,000,000 being added to what was in the vaults, and the Treasury has now
